PROGRAM SPONSORSHIP

2050 Regional Visioning

In collaboration with multiple regional organizations, The Partnership is launching an initiative to develop a 2050 regional vision. This effort will establish a unified, long-term perspective that tackles issues too big for any single community, coordinates efforts across sectors, and leverages resources effectively at a regional scale. By using data to align goals and create a framework for proactive problem-solving, this plan will guide regional development for the next two decades. The strategic planning process starts in 2026, with the plan's official kick-off in 2027.

INVESTMENT

To support this initiative, we are offering tailored opportunities to get involved. If interested, please contact The Partnership's Investor Development team.
